

## Supplier Declaration REACH SVHC (Article 33 & SCIP)

### Regulation (EC) No 1907/2006 (REACH)

This declaration concerns Substances of Very High Concern (SVHC) included on the ECHA Candidate List in accordance with REACH Article 33.

SVHC List version (ECHA): November 2025

### Declaration

All products manufactured and supplied by Vexve Denmark – Frese A/S comply with the applicable requirements of the REACH Regulation, including the obligations under **Article 33** regarding communication of Substances of Very High Concern (SVHC).

We actively monitor and apply the current SVHC Candidate List published by ECHA and ensure that required information is communicated throughout the supply chain.

### Presence of SVHC in Brass Components

Certain products containing brass components include lead (Pb, CAS No. 7439-92-1) in concentrations above 0.1% w/w, as permitted under relevant EU sectoral legislation. This is consistent with the declaration structure found in internal REACH compliance documentation.

### SCIP Registration

All articles containing brass with lead above 0.1% w/w have been registered in the ECHA SCIP database, in accordance with the Waste Framework Directive.

A complete overview of SCIP numbers is available on our company website [www.frese.eu](http://www.frese.eu).

### Supplier Responsibility

Vexve Denmark – Frese A/S remains committed to ensuring full regulatory compliance and to updating this declaration if material changes occur in product composition, applicable regulation, or SVHC Candidate List updates.
