

Myresjö Plastteknik AB

Enligt SP/RISE gäller vår certifiering (CE-märkning) samtliga våra tankar, oavsett storlek, eftersom de tillhör samma familj.

Denna text är tagen ur dokument i standarden EN 12566-1:2016:

Product family

Group of products in which, for the purpose of evaluation, the selected property(s) is/are similar for all products within the group.

Note 1 to entry: The definition of family takes into account at least similar shape, equipment, materials and conditions of end use and ensures the minimum hydraulic efficiency and minimum structural behaviour for all the products in the range.

Note 2 to entry: The minimum level of performance (hydraulic efficiency and structural behaviour) are given by the test carried out on one model of the family.
