More information

The EPD covers the following Alterna bathtub:

- Piazza
- Ovale
- Elisse

- Nova

All product ranges have the same material composition per kg. Materials for drainage pipe and support frame are also included.

The product is assumed to be 100% landfilled at the End of life stage.

A1, Raw material supply

This module considers the extraction and processing of all raw materials, energy, and transportation which occur upstream to the studied manufacturing process.

A2, transport to the manufacturer

The raw materials are transported to the manufacturing site.

A3, manufacturing

This module includes all resources used during the production of Alterna bathtub and waste produced. This also includes additives and packaging material.

A4, Transport

Transportation from the manufacturing site in China to SGDS Gruppen's distribution centre and then from the distribution centre to the building site is included.

A5, Construction installation

This stage is not declared.

B1-B7 Use stage

This stage is not declared.

C1 Deconstruction/Demolition

This stage includes the de-construction and/or demolition of the building. This is not relevant as the product included in this study is not used in the construction process.

C2 Transport

This stage represents the transport distance to the waste processing facility.

C3 Waste processing

This stage includes any waste treatment needed.

C4 Final disposal

This includes any material that is landfilled.

D Benefits and loads beyond the system boundary

Emission credits obtained from energy recovery and/or recycling materials.

Cut-off criteria:

All input and output flows in a unit process were considered i.e., taking into account the value of all flows in the unit process and the corresponding LCI where data was available. Data gaps were filled by conservative assumptions with average or generic data. Any assumptions in such case were documented. The use of cut-off criterion on mass inputs and primary energy at the unit process level (1%) and at the information module level (5%).
