# Prevex® EasyClean Bath™

WASTE VALVE FOR BATHTUBS

#### Easy to clean

Never before has cleaning the waste valve been this easy, as it does not have to be removed from under the bathtub.

#### Low height

With its 78 mm, EasyClean Bath is one of the lowest waste valves on the market, which means it fits any bathtub.

#### Minimised risks

Easy cleaning minimises the risk of leakage and water damage, as the waste valve does not have to be unscrewed and disassembled.

#### Pre-assembled

Like all Prevex products, this waste valve is pre-assembled, meaning it is quickly and easily installed.

## EasyClean Bath – for convenient cleaning .

Prevex® EasyClean Bath™ is a waste valve designed for Scandinavian bathtubs. This clever innovation keeps your bathroom floor drain nice and clean, as all residue build-up is gathered in the waste valve. The EasyClean Bath waste valve itself is extremely fast to clean. The assembly tool that comes with EasyCleanBath is made of wood fiber material.

WASTE VALVE FOR BATHTUBS

This is how easy it is to use EasyClean Bath.

1

Lift the plug and basket from the waste outlet.

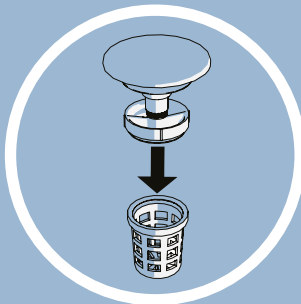

2

Turn the basket inside out, remove the dirt and rinse under running water.

3

Put the plug and basket back into place.

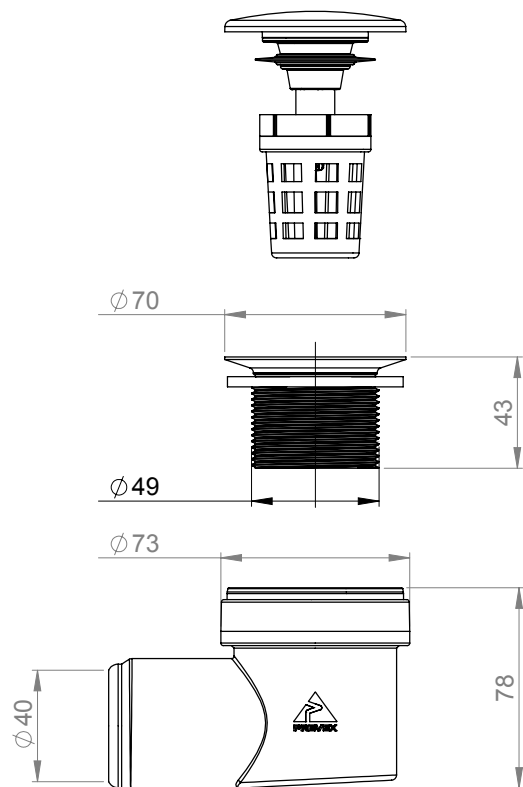

Fits standard holes of  
50 mm in bathtubs. Suitable  
for 6-16mm thick bathtubs.
