

Mounting Instruction

Revision set : SmartSwitch
Article No. : 15.517

Contents of the revision set:
1x SmartSwitch.

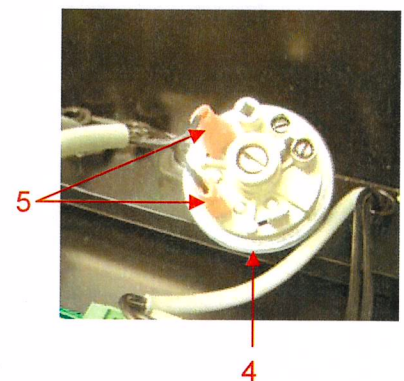

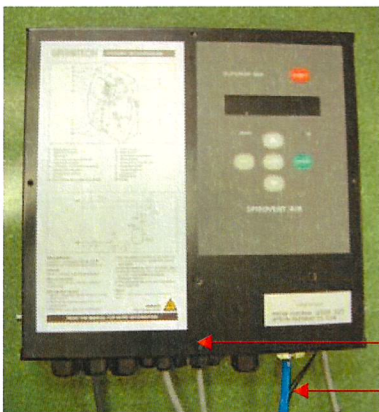

NOTE: Before servicing the SpiroVent Superior make sure the unit is isolated from the power supply and that all pressure is released. (see chapter 7.2 of the user manual)

Note: the SmartSwitch is put in the right side bottom of the control unit.

(De)mounting:

- 1) Pull loose the blue tube (1) from the SmartSwitch
- 2) Remove the metal clip (2) under the control unit.
- 3) Unscrew the bolts (3) in the front of the control unit and open it.
- 4) Take the SmartSwitch (4) out of the control box and take loose both clips (5).
- 5) Take the new SmartSwitch and connect the clips as shown in the right figure below.
- 6) Position the SmartSwitch in the bottom of the control box.
- 7) Close the control box and screw down the bolts (3) in the front of it.
- 8) Fix the SmartSwitch by pushing back the metal clip (2)
- 9) Push back the blue tube (1) on the SmartSwitch.

Putting the SpiroVent Superior back into operation.

See chapter 5.5.4. of the installation and operating instructions for taking the Superior in operation again.
