

Accepterad
monteringsanvisning
2021:1

Installationen ska utföras enligt "Branschregler Säker Vatteninstallation"

FI Vieser lattiakaivojärjestelmä asennusohjeet

Vieser-kaivot ja korokerenkaat ovat tyyppihyväksytyjä. Hyväksynnän voimassaolo edellyttää, että kaikki käytettävät tuotteet ovat samaa Vieser-tuotesarjaa.

EN Vieser floor drain systems installation instructions

Vieser floor drains and extension rings are type-certified. The validity of the certification requires that all products being used be of the same Vieser product series.

NO Vieser gulvsluksystem monteringsanvisninger

Vieser gulvsluk og forhøyningsringer er typegodkjente. Godkjenningens gyldighet forutsetter at alle produkter som brukes tilhører samme Vieser produktserie.

SE Vieser golvbrunnssystem monteringsanvisningar

Vieser golvbrunnar och förhöjningsringar är typgodkända. Godkännandets giltighet förutsätter att alla produkter som används tillhör samma Vieser produktserie.

EE Vieser põrandatrapi süsteempaigaldusjuhendid

Vieser trapid ja tõsterõngad on sertifitseeritud tooted. Tuubikinnitus kehtib eeldusel, et kõik trapisus teemis kasvatavad tooted kuuluvad Vieser tootesarja.

RU Сантехнический трап «Vieser» инструкции по монтажу

Трапы и промежуточные кольца «Vieser» имеют типовое одобрение. Одобрение предполагает, что все применяемые изделия представляют одну серию изделий «Vieser».

Finland - Baltic

Sweden

Följ instruktionerna för monteringsplatta RSK 7114179.

Norway

Skjær ut et hull på 170 mm i treplaten. Skru på plass sluket med 6 4x20 mm skruer.

Monter understøttelse på minst ensiden in henhold til BVN 42.110.

Skal det støpes betong på tregulvet, benyttes forhøyningsring 6003433 (NRF:3410865).

⚠️ Paina valkoinen tukirengas pohjaan asti | Tryck fast den vita stödringen ända till botten | Press down the white supporting ring right to the bottom | Suru valge tugirõnga tösterõnga põhja | Trykk fast den hvite støttingen ned til bunnen | Нажать белое опорное кольцо до конца.
