

the range of coolers
Piccola

DOMESTIC - OFFICE

**All the water you want,
in next to no space!**

Cool, yes we are.

Piccola

Modern design, unrivaled compactness, illuminated dispensing zone, limitless convenience. This is “Piccola”, the small-but-mighty Blupura solution for every home and office.

Attractive and incredibly compact in its dimensions, Piccola stands out for its versatility, in both aesthetic and functional terms. Available in white or black versions, to allow it to fit in any surrounding, Piccola offers a full four dispensing options: still, slightly sparkling, sparkling cold water and room temperature water.

Piccola Cabinet

Great design, great functionality! Constructed entirely from black-coated sheet steel, it features a broader base that increases stability thanks to four small rubber feet. A lock affords access to the interior, which houses filters and 10 kg CO₂ cylinders measuring up to 20 cm in diameter, as well as the LED fitting for the re-fill alarm.

BDC

Cooling Technology: Blupura Direct Chill

It's the direct chill hygienic technology with high capacity carbonator.

GAS R600

With totally natural refrigerants (HC) such as R600.

An ecological choice, with the advantage of a quieter compressor that guarantees a longer life of the entire refrigeration system and energy saving.

A LED supply button with alarms

For lack of water, flooding and malfunction in heater (mod. Hot).

energy saving

Energy saving (mod. Hot)

The Hot model is equipped with an Energy Saving function to reduce energy consumption during periods of non-use.

4 lt/h

The Hot version with 4 litres of hot water

The Piccola Hot model dispenses hot water that is perfect for making tea and infusions. The Piccola Hot has LED dispensing buttons with alarm systems that are triggered in the event of a lack of water, a leak or a malfunction of the boiler.

Piccola BOX

All the compactness and the same performance levels of Piccola are also available in the highly functional undercounter version, which takes its place discreetly in kitchen units and in the furniture of "coffee break" areas in offices.

The undercounter model: an intelligent, space-saving solution with only the supply point in view, leaving you the freedom to choose the tap most suited to your environment.

BluSeven

Top Control

BluTower

T5

Accessories

Bluprotection

At the end of the production process, the water circuits of each Blupura water cooler are filled with the BLUPROTECTION mixture in order to remove any Pseudomonas and avoid any proliferation.

Water Bottles

* Space customisable with logo and message.

UV filtration in line (12W)

In line UV light.

Sanitizing products

Sanitizing and clearing products for the plants.

Filters

Purifica l'acqua rendendola limpida, cristallina, inodore ed insapore. È in grado di trattenere tutte le impurità di grandezza fino a 0,5 micron, eliminando tutti gli odori ed i sapori come quelli del cloro disciolto, le fibre di amianto ed alcuni microorganismi come il criptosporidio.

- Filtro 3M (capacity 4000 lt.)
- Filtro Blupura sediment (capacity 19000 lt.)
- Filtro Carbon Block Blupura (capacity 19000 lt.)

UVC lamp at exit (4W)

A UV light at the end of every tap. As demonstrated by numerous studies, UV light acts as a strong steriliser therefore preventing the growth of bacteria.

Nano Silver pipe

Stainless steel tube AISI 316L with an innovative nanotechnology-based SILVER ion treatment on the surface. Silver is naturally bacterio-static and so reduces bacterial growth in the pipe. The surface treated with these nano particles is much more compact and smooth: this prevents the formation of deposits, biofilm or bacterial colonies and because the water flows better through the tube, also reduces dripping at the end of dispensing.

Pressure reducers

CO₂ pressure reducer for refillable or single-use cylinder, water block, water pressure reducer.
